

Our Guiding Principles

At CCR Environmental, Inc., we feel strongly that project success is measured in protecting natural resources, achieving regulatory compliance and successfully completing client's projects on time and within budget. Based on the strength of our knowledge of natural resource sciences and our keen understanding of environmental regulations, we pride ourselves in our ability to guide our clients' projects through the regulatory process. High quality and accurate information allows decisions to be made that save time, reduce costs and minimizes risk.

About Us

Formed in 1999, CCR Environmental, Inc. is a small team of well-trained and dedicated biologists and ecologists, who have performed hundreds of natural resource studies throughout the southeastern United States. The majority of our business comes from longstanding customers who value our knowledge of natural resource sciences and management, and our high quality and cost-effective services. Our knowledge of environmental regulations combined with our good working relationships with state and federal regulatory agencies equip us with the tools necessary to deliver great service to all our clients. We look forward to your call.
